-Murderer Lynched. [SPECIAL DISPATCHES TO THE RECORD-UNION.]

THE ISLAND OF FORMOSA. Minister Denby Compliments the Military Aministration of the Island. WASHINGTON, March 7th .- In a dispatch WASHINGTON, March 7th.—In a dispatch to the Department of State, Minister Denby pays a high compliment to the present military administration in Formosa, who, the Minister says, is doing much to establish order and develop the resources of the island. In the last year it has been able to bring into subjection over 400 villages, with the result that 7,000 people have embraced civilization and over 20.

have embraced civilization, and over 20,-000 acres of abandoned land have been re-000 acres of abandoned land have been re-claimed. The previous condition of affairs is exemplified by the statement of Vice-Consul Cowles, that a thousand murders a year are charged upon the aborigines. Con-sul Cowles, of America, speaking of the energetic administration of the Governor-General, says that he has instituted many new taxes, and has erected a Gov-ernment monopoly of the camphor in-dustry. This, says the Consul, is regarded by the foreigners as but the first step or en-tering wedge to a feeling of the way by the native authorities of Formosa to similar and more important Government monopo-

Important Railroad Enterprise. New York, March 7th .- The Wall Street Indicator says: A very important railroad enterprise is now projected, in which the Vanderbilt roads are interested, and which will give the Vanderbilt system a reliable w s ern connection. The project is to build a line from Kansas City to Alton, a company having already been organized, under the having already been organized, under the title of the Central Missouri Railroad Company, for this purpose. The line will be about three hundred miles, and will have a branch to Hannibal ninety-five miles long. The road will connect with the St. Louis and Chicago, which now extends from St. Louis to Springfield, and will

shortly reach Peoria, where it will be brought into connection with the roads centering there. At Litchfield a connection will be made with the Cleveland, Columbus, Cincinnati and Indianapolis, and that road will be made part of the Great Southern made part of the Great Southwestern System, which will make that property one of the most valuable of the Vanderbilt lines. At Joliet the Michigan Central will also be given a connection with the Chicago, Santa Fe and California Line, recently purchased by the Atchison Company.

Interstate Railroad Commissioners. New York, March 7th .- A Washington dispatch says: It can be said on high authority that three members of the Interstate Commerce Commission are absolutely decided upon. The President is in doubt about the two remaining selections. Wm. R. Morrison has accepted the tender of a Commissionership, and probably will be Chairman of the Commission. Judge Cooley, of Michigan, receiver of the Wa-bash system, and General Bragg, of Ala-bama, will also be Commissioners. The former is a Republican, and one of the ablest jurists of the country. The latter will represent the South.

The Striking Brakemen. Pirtsburg, March 7th.—A special from Youngstown, Ohio, says that the situation between the officers and striking brakemen on the New York, Pennsylvania and Ohio railroads is practically unchanged. The excitement was increased this morning by conductors and brakemen in the emloy of the Pennsylvania Company strik-ng. A demand for an advance in wages was made two months ago. The men receiving no answer, decided the fall-out to-day. The men are quiet and orderly, and manifest a determination to secure an advance or not return to work. The brakemen on the have asked that the third brakemen be put on, and if it is not conceded they assert they will strike on Thursday of this week. The strial establishments are badly crippled for stock, and a general shut-down imperative unless traffic is resumed.

A Boycott Raised. NEW YORK, March 7th.—At a meeting esterday of the Central Labor Union, the Concord Labor Club of Printers handed in a resolution calling upon the union to raise the boycott upon George Ehret's beer. The resolution said all occasion for en-forcing the boycott has been removed. The vote upon adopting the resolution was 36 for and 20 against. Then the boycott was removed, with four dissenting votes. The oycott was put on last summer, after the onviction of boycotter Theiss.

The Tilden Will Contest. New York, March 7th .- The answer of John Bigelow, Andrew H. Green and Geo. W. Smith, as executors under the will of the late Samuel J. Tilden, to a complaint of Geo. H. Tilden, who contests the will on the ground of being illegal and invalid, was called to-day in the Supreme Court. The reply recites the names of the relatives, and claims that the plaintiff has no right to institute or maintain a suit; that the de ceased was unmarried, and his father and ceased was unmarried, and his lather and mother deceased. The sisters, Mrs. Pelton, and nephews and nieces are next of kin, but under the will are not entitled to any of the estate. It is denied that the amount of the estate is any where near \$15,000,000. It is claimed, in conclusion, that the defendants are appointed as executors under would soon be peacefully and completely POMMERY AND GRENO CHAMPAGNE. the will, and refer to the original as their

The Spanish Decree Reducing Sugar Duties.

New York, March 7th.—Sugar refiners here say the Spanish decree making a reduction of 20 per cent. in export duties on sugar shipped from Cuba is not of much importance to the trade in the United States. The effect is simply to lessen the cost about 50 cents per hogshead. As only Cuban sugar is effected the decree is but a drop in the bucket as far as we are conirop in the bucket as far as we are concerned.

Attempted Bribery. DENVER, March 7th.—W. H. Aker, Deputy Sergeant at Arms of the House of Representatives, was arrested this morning on resentatives, was arrested this morning on a warrant charging an attempt at bribery. There are now before the House bills to regulate irrigation ditch companies, pawn-brokers, and one for a high license of retail liquor dealers, and it is alleged Aker offered a member \$100 if he would cast his vote against these measures. It is also stated that Aker is only one member of a combination of seven formed to defeat these bills, the other six being members of the ills, the other six being members of the House and Senate.

A Negro Murderer Lynched. WINONA (Miss.), March 7th .-- Łlex. Craw-Winona (Miss.), March 7th.—Alex. Crawford, a negro murderer, was taken from jail by an immense crowd of enraged citizens to-day, and hanged from the trestle of the railroad near town. He made a desperate fight in his cell against the crowd, being armed with a broomstick, which he wielded with effect, but was finally overpowered. He died game, refusing to make any declaration. His victim was Vic. Loggins, a prominent merchant of Winona, whom he killed on the evening of February 28th. ruary 28th.

where such privileges are desired. He will do nothing, he says, until he has received a certified copy of the bill from the Department of State. He expects to receive this in a few days, and will at once make Paris, March 7th—The Figure says that

Trotter, the new Recorder of Deeds for the District of Columbia, called at the White House to-day in company with ex-Recorder Matthews, and was formally

presented to the President. It was their first meeting.

It is expected that Judge McCue, Solicitor of the Treasury, will either be appointed as additional Circuit Judge for the New York District, for the trial of customs cases, or that he will be appointed Assistant Secretary of the Treasury in the event of Fairchild's appointment as Secretary.

Lands Restored to Entry. Washington, March 7th.—Commissioner Sparks has ordered the restoration to entry of 12,300 acres of land in the Reed_City, Michigan, Land District which was selected in 1871 by the Jackson, Lausing and Saginaw Railway Company. The Commissioners in 1885 held that these lands were excepted from the railroad grant by reason of having been embraced in an Indian reservation at the date of the grant, and that by the subsequent extinguishment of the Indian reservation the lands were restored to the public domain, and were restored to the public domain, and did not inure to the railroad company. Secretary Lamar affirmed the decision, and the present action opens the lands to settle-ment and entry under the public land laws. Speaker Carlisle.

Washington, March 7th.—Speaker Carlisle is enthusiastic about the future of Kansas. His next term in Congress will native authorities of Formosa to similar and more important Government monopolies in other and more important articles of industry and trade, that might cause irreparable injury to the foreign commercial interests connected with the trade of Formosa, such for instance, as the tea and sugar trade; and as nearly all the tea produced in Formosa finds a market in the United States, as well as some of the sugar product, the creation of Government monopolies in that island may justly be viewed with more than ordinary interest, as to their present and probable future effect upon American interests.

Kansas. His next term in Congress will close his political career. It is reported that it is his intention to locate in Wichita, Kan., two years hence, and, thus eschewing politics forever, settle down to practice his profession. At his suggestion his boys went to Wichita in 1885. He gave them \$500 apiece and told them they must shift for themselves. He has just received a letter from one of them. The boy said he and his brother, during the time they have lived in Wichita, have accumulated jointly the snug little sum of \$25,000, and their present and probable future effect upon American interests.

The Signal Service. The Signal Service.

Washington, March 7th.—The Signal Service is likely to be sadly pinched by the failure of the general deficiency appropriation bill. The most serious consequences of the failure of the bill, perhaps, will be the discontinuance of storm warnings, cold waves, etc., at a number of important points, owing to the failure of the item appropriating \$18,000 for telegraphing and reporting these warnings. So nearly exhausted is the sum now available, that a heavy cut must be made in the service at a very early day. California Postal Changes.

WASHINGTON, March 7th. — Hubert R. McNoble has been commissioned Postmaster at Glencoe, Cal.
Changes in the star schedule have been ordered, as follows: Arbuckle to Colusa, from December 1st to March 31st—Leave Arbuckle daily (except Sundays) at 1 p. m.; arrive at Colusa by 6 p. m. The shipment of fractional silver coin during February amounted to \$251,989. The Drummers Gain a Victory WASHINGTON, March 7th .- The Supreme Court has to-day rendered a decision in a case brought from Tennessee, which involves the right of one State or municipality to impose a license tax on drummers or

traveling salesmen from another State seeking to sell goods by sample or otherwise. The decision is that such taxation is an interference with interstate commerce and is therefore unconstitutional On Their Way Home.

FOREIGN.

Emperor William on the Situation. Berlin, March 7th.—Emperor William vesterday received Herr Wedel Piedorff, President of the Reichstag. In the conversation which took place the Emperor versation which took place the Empeloi said he was reluctantly compelled to dis-solve the late Reichstag. Despite his ex-planation to the Reichstag of the superiority of Germany's neighbors over her in military matters, the opposition majority refused to sanction the military bill to the necessary extent, and the reasonable hope that the septennate term would have been adopted after the example given by France proved fallacious. It was more gratifying now to cherish the hope that a large majority in the new Reichstag would accept the bill at the outset. Referring to the attitude of the Pope during the elections, he said he had already been convinced of the pacific disposition of his Holiness, and that it was on this account that Germany had asked him to act as arbitrator in the dispute with Spain about the Caroline islands. In conclusion, the Emperor expressed the hope that all ecclesiastical troubles between Prussia and the Vatican

Treaty Between Italy, Germany and Aus London, March 7th.—It is reported here as an absolute fact that Italy has made a treaty with Germany and Austria. Herr Windhorst, leader of the Clerical party, will then declare his intentions in relation to the septennate term. The other party leaders have announced that they will vote as they did when the bill was de-feated in the late Reichstag.

A Demand on Bulgaria. Soria, March 7th.—Baron Thielmann, the German Consul-General, on behalf of Russia, has demanded the release of the Russia, has demanded the release of the six rebels, two of whom have already been shot. The French Consul-General has complained that Karaveloff and Tsanoff were maltreated by the Government. The Government denied the charge, on the admission of the rebels themselves. The Porte has advised the Government to deal leniently with the rebels.

SHALL IT BECOME RESPECTABLE, OR REMAIN ODIOUS?

A correspondent whose opinions are entitled to respect, and whose partisanship is strong, asks why we assail bossism if it is the natural product of the American system? While, however, not asserting that to be true, his inquiry justifies the belief that he looks upon it as the evolution of a political system not possible to be changed. The response to the suggestion is, simply that the premise is untrue. That bossism is an outgrowth of our system is admitted -but it is abnormal and ulcerous. It indicates not the hopelessness of the case, but the fact that the blood needs the administration of a corrective. Further on, our correspondent, with some asperity, asks if the rule of the boss is the result of the acquiescence of the people, why should they complain; and if it is not true that when they consent to his management, accept his labors for party and avail of his skilled disciplinary methods, that they thereby estop themselves from murmuring, possessing, as they do, the power to revoke at will the control granted?

The inquiry gives the question away The failure to do duty in any sphere of activity invariably breeds ills. That the peoply by neglect of public duties have consented to bossism, is in a sense true, but that they are thereby barred from com plaint, is not. Were the methods of the boss justifiable, and the results contributive to political purity, he would not be a "boss," but affirmatively the representative of the majority of the people. But, says our correspondent, there always existed leaders and managers, and they always will, of necessity, exist. They are indispensable in organization, and as essential as any other part of political machinery. But if, for the sake of the argument, we admit this to be true, it does not follow that the leader shall be a conscienceless, unscrupulous, vote-buying, nominationselling, legislation-commission boss, dealing in the human cattle that swarm from the slums, and making merchandise of the prerogatives of freemen. In the methods and agencies employed are the roots of the evil. These methods are not illustrative of a representative system; they do not voice the judgment or stand for the conscience of the majority, and are, therefore, undemocratic. Whatever is undemocratic is antagonistic to a republican form of government, and it follows that boss methods

are destructive of American institutions. ity of men, the corruption of officials, the ess of law-makers, that many are led to express their nervous doubts of the experiment of a Republic proving successful, as because of the bossism that stands behind these evils, and, by obstructing the path of reform, makes its ways difficult to tread. When sinister elements control the machinery of party, the mediums of protest are usurped, and the machinery of organization, that in itself is wise and beneficent, is made baneful, and impotent to respond to the demands of the people. This control has become so autocratic and dishonestly catch them, a half a show against dainful that citizens desiring to compete Chinese thieves, and any and all defiant with the chosen of the bosses, for offices of men who fish by illegal methods. trust and honor, cannot secure even the poor privilege of having their names pre-

sented to their party conventions. The dread of facing law-makers that falls upon the people biennially is due to the universal conviction that behind ill legislation is all-powerful political bossism, shielding the unworthy legislator from the people. To call the venal legislator, the mortgaged municipal officer, or the the nature of treatment of symptoms. To of methods for the removal of its causes Now and then, in their indignation, the people, by sudden revolts, do work reforms that cause temporary disappearance of the symptoms, and there is thus created a fatal confidence that the disease itself has ceased. Indeed, bossism prefers that there should be occasional revolts, since these intermittent manifestations are unfailing evidences that the seat of the evil is not to energies, is the promotion of attempts to

be probed. So we have said repeated that lopping off of twigs will not kill the tree, that they please, and for what they please. bolts and spasmodic breaks and shortlived independent movements are not in the direction of true reform. If bossism is to be extirpated, it will only be done by uprooting the evil, and the complete extraction from political soil of the remotest other words he can see but little in day threads of its tap-root. This is to be done light, scarcely at all in the sunlight, but at night his vision is perfect; he can penetrate not only within party, but by an absolute American society. Men must be brought to see that performance of duty as a citizen is superior to the duty done as a partisan; that he is the best partisan who is the most active in his capacity as a constituent of good society, and he is the enemy of city" under the cover of darkness.

The general topic of conversation is the date of adjournment. The members of the House have mostly agreed upon midnight Wednesday. The members, generally, are not men of wealth and do not propose to donate gratuitously much of their valuable time. In consideration of the fact, however, that they have piled up a mountain of unnecessary expenses, some of the

fact, however, that they have piled up a mountain of unnecessary expenses, some of the members for mere shame's sake, are willing to stay a few days longer and endeavor to make a respectable showing.

Knox of Los Angeles introduced a resolution directing the Secretary of State to give each member of the Assembly a copy of the debates of the Constitutional Convention. As but few of the members of the Assembly are lawyers and have no use for them, this donation of eighty set of books, valued at \$40 each, was looked upon as rather a strong pull, yet it carried by almost a unanimous vote, Coombs of Napa being the only member who voted against this last grab. The House at the first of the session voted themselves a set of Codes valued at \$10 each.

THE GOVERNOR'S VETO. THE GOVERNOR'S VETO.

When the Governor's veto to the stamp and label bill was read by the Clerk, Cohen, the author of the bill, moved to make its further consideration a special order for Tuesday, at 8 F. M.

Britt said he "hoped and trusted" that the motion would prevail. He and many others of those who represented the city of San Francisco had their hearts set upon this bill. He "hoped and trusted" members of the House had sufficient respect for his constituency to make it a special order. He closed his speech by saying: "Mr. Speaker, I 'hope and trust' this motion will prevail."

prevail."

Britt's speech carried the House, and the motion of Cohen prevailed.

On motion of Currey of San Francisco, S. B. 430, relative to the levy of a tax for the completion of a City Hall in San Francisco, was made a special order for 11:30 A. M. to-morrow.

The balance of the evening was devoted to the first reading of bills.

LEGISLATIVE NOTES.

Unless the members of the Legislature desire to answer to the people for trying to defeat and annihilate the plan of the State publishing the series of school text-books. which the people so unanimously approved when adopting the constitutional amendment providing therefor, they will do well ment providing therefor, they will do well to at once take steps to pass Assembly Bill 503, which has already passed the lower house and gone to the Senate, and Senate Bill 426, which is on the special file in the Senate for third reading. The former provides for continuing the publication, and the other for distribution. The failure to pass these bills means the killing of the the propiet with entire plan to furnish the people with the State school book series.

The Assembly Committee on the State Library met last evening. The payment of the Thomas bill was found to be charged. The money, \$1,373 25, was drawn Novem ber 27, 1885, and final payment not made until ten months later. Wallis admitted that in this matter he had been negligent. The first delay was caused by the cataloging and non-arrival of all the books. He said he had not used the money, and that it was always on hand. He said he had been robbed of \$480 in January, but that was his own funds. The cash-book showed that the full \$1,373 25 was charged as paid on November 27, 1885. Judge Beatty explained how business was conducted under the present Board, and said such a thing could not now occur. Mr. Lawrence then quoted a warrant, 685, dated July 22, 1886, for \$144, whi was not paid until October, 1886. Mr Knox, of the committee, said that the method of conducting the business was loose and reprehensible, and the committee would be compelled so to report. The committee adjourned to meet at 8:30 P. M.

Judge Sullivan of San Francisco cam to the city last evening and is a candidate for the position made vacant in the Supreme bench by the death of Judge Morrison. of the Holy City. Wad-El-Ward, a Hebrew, a native of Jerusalem, delivered a lecture last evening

at the First Baptist Church, to a large audience. His lecture was upon "Jerusalem and the Holy Land, the customs, dress, religion and manners of that people." In Jerusalem, he said, a man was never of age so long as his parents lived. If the son or his wife committed a wrong the father retained the right of punishing them for the offense, and none could gainsay his authority. If on the part of the son the offense was one of a serious nature, the father could drive him from the country and could compel him to leave forever his wife and children. The climate of Jerusalem is said to be glorious, something similar to that of the Oroville citrus belt. The girls are given in marriage at ages running from 12 to 15, while boys were permitted to marry at ages ranging from 14 to 18. When parents desire to select a wife for their son the mother goes to a family of the same social position, forms the ac-quaintance of the daughter, and after reeated visits, if she concludes that the

A SUITABLE PERSON TO WED Her son, she so informs her husband. The latter then visits the daughter's parents, and asks the price, which, as a rule, is fixed in accordance with their social condition. The intended bride is then presented for the first time to her future husband. This presentation is repeated seven

times. At each presentation she is dressed in a new garment, supposed to be given her by her intended husband. These dresses, according to their custom, last the are the same as have been worn by th are the same as have been worn by the Jews for ages. The lecturer said that the price paid for the daughter was always invested to the best advantage and kept as a sacred trust for her against the days of misfortune. Referring to the divorce laws of that country, he said a husband and wife agree to disagree, the wife demands a bill of divorce, which is given; she returns to her father shows her release and is received. father, shows her release and is received again into the family, but if she returns home without a bill of divorce, she is questioned as to the cause of separation, and, if it proves to be on account of infi-delity, she is taken immediately outside of the city and

STONED TO DEATH.

The husband, if he proves untrue to his marriage vows, is punished in like manner. No distinction is ever made, and death is as certain to the husband as to the wife. The lecturer said if he could only remain in the northern citrus belt a few years he would grow as fine oranges here as they have in Palestine. In speaking of butter-making he said that his people made their churns by stripping the skin from a goat, and then tanned it, turned the hair inside, and then poured the milk in it; it was then churned. This method produced butter equal to any furnished by the American restaurateur, it being strong and hairy.

Referring to the price of living, he said that seven cups of coffee only costs 23 cents, and that 100 eggs could be pur-chased for 23 cents. A sheep which would weigh from 350 to 400 pounds could be bought for \$1. The lecturer then concluded the evening's entertainment, which lasted two hours, by singing songs in eleven lifferent languages.

Enters with grim determination written upon his brow, and liberty or death in his eye—a pretty bad-looking mouse. As he dashes around the room, as if in initation of the grande entree at the circus, the ladies grasp their precious skirts, the ladies grasp their precious skirts, and the did not hear what was said, but, on the request being repeated, he assaulted Mars with his knife, inflicting the wounds referred to above. Not having any weapon, Mars displayed to the had been living at Grant's house, but two or three weeks ago Grant ordered him from Saucelito, with lumber, posts and grape poles for the Friend & Terry Lumber Company; also the Dover, from the upper Sacramento, with grain.

The weather has been warm on the hill lately, but its effect upon the snow does not appear to be sufficient to have much effect upon the rivers. The Sacramento is stead-live felling and last evening was down to 17 was used without provocation. He said he had been living at Grant's house, but while a party of children are enjoying tation of the grande entree at the circus, the ladies grasp their precious skirts, whisk them about their limbs, and jump upon the chairs, and with a grand chorus of "Oh-h-h! Goodness gracious!" look longingly toward the table and piano—so near and yet so far. Just then, when it seemed so probable that the husbands of the ladies would soon be widowers, for any above. Not having any weapon, Mars discomfitted his enemy by butting him between the eyes, and was then allowed to go.

Officer Farren dispatched him to the City Physician's office, where the wounds, which are not serious, were dressed.

A correspondent woman can tell you that a mouse is just awful, the little boy led a charge against the intruder, whom the children pursued with sticks and whatever else they could swollen and discolored, showing the effect of the butting, and one of them had a slight cut beneath it. His nose had been bleeding freely, damaging his clothing. He stated that Mars visited his premises, apparently to provoke trouble, and finally assaulted him, giving him right and left-handers with great liberality. He begged him to desist, but when he would not, and seemed disposed to mail him as he would seemed disposed to maul him as he would a tough beefsteak, he took out his knife and defended himself with it. He denied her hat up from the lounge and put it on, she expressed the belief that she wouldn't get over it for a month."

The second act shows the visiting lady in the act of "dropping in" upon another friend on the way home—but only for a moment, and she couldn't possibly stay long enough to lay asi le her hat. Men-

tion was made of amusement matters, and Dr. Fowler's lectures on phrenology were spoken of, especially that one in which he declared love to be a form of insanity. he was in need of one.

State Quarantine Against Small-Pox. EDS. RECORD-UNION: In last night's Bee an item appeared stating that Dr. G. G Tyrrell had received a dispatch from the President of the State Board of Health, ordering him to call the Board together for the purpose of placing a quarantine on Los Angeles. In this the reporter is slightly in error. The dispatch to call the Board together was for the purpose of deciding the question of placing a quarantine on our southern border to prevent the further influx of small-pox from Mexico and Texas. Los Angeles has its own Board of Health, which is fully capable of taking such measures as are necessary to protect its people from the extension of contagious disease. Yours respectfully, G. G. TYRRELL, Permanent Sec. State Board of Health.

WRECKED BUT SAVED .- Albert Gallatin and C. W. Clarke have recently received a dispatch stating that the steamer on which their daughters were en route to France to attend school, was wrecked in the English Channel, but all on board were saved. The news of the loss of the steamer precede the information that the passengers w rescued, and deep anxiety was feit until the safety of all on board was announced. The loss of the vessel probably includes the loss of all baggage.

Patent Leather Shoes are more in vogue than for seventeen years. Shoe journals say 1870 was patent leather year.

Patent leather is strictly a fashionable leather. One reason why it has not fallen into common use as a staple, is that it is not overdurable. Moisture hurts it. For this and other reasons only persons with dry feet should wear it. With this exception, and particularly in a dry climate like ours, there is no reason why it should not last as long as any leather.

For ladies' carriage, reception and general dress wear, nothing is more elegant. Our latest arrivals in this line are two styles at \$7 and \$7 50. The first has a patent leather front, or "vamp," as the trade calls it, the heel and upper parts of finest French kid; the latter has the whole lower part of patent leather, with no seams. Opera toe and medium heel. Both are faultlessly cut and finished, and as specimens of the shoemaker's art would be hard to

SARSFIELD'S REMEDY for the Blood and Constipation!
SARSFIELD'S REMEDY for Diphtheria and Pneumonia!
SARSFIELD'S CHRONIC ULCER SALVE! The people of the Interior will remember that a few years ago, J. P. SARSFIELD, of Sacramento, became fortunately possessed of certain valuable remedial agents. With these he effected in Sacramento and Central California remarkable cures, and drew the approving attention of many physicians. So widespread became the fame of his remedies, that business men were convinced of their entire reliability, and of the truth of the marvels they accomplished. The result has been the formation of a Company to aid him in putting these needs for suffering humanity broadly upon sale. The Company has its Depot at No. 115 EDDY STREET, SAN FRANCISCO, but the medicines can be had of all reputable draggists.

The making of Certificates has related so largely to fraud, that the public has naturally grown suspicious of them. But those here referred to are by such prominent citizens, of such irreproachable character, and the cures are so well known, and the witnesses so easy to reach, that we make the references with-

MRS. H. C. GOODRIDGE, 28 Hawthorne street, nine years in bed with Chronic Ulcers and unutterable pain, and abandoned by physicians. Permanently cured in less than four weeks. Certified to by Mrs. Sarah B. Cooper, the well known philanthropist and President of the Kindergarten Association, San Francisco.

FRANK CASSADY, Petaluma, Severe Hip Disease, over a year's standing. Cured permanently in thre months. Certified to by his uncle, Hon. James Denman, San Francisco, the widely-known and popular educator.

MRS. M. A. ADAMS, formerly of Sacramento, completely cured in four weeks at the residence of her brother, Benj. Welch, Master Car Builder, S. P. C., Sacramento, of Running Sore on the arm, of eight years' standing, and that had nearly sapped her life. MRS. L. P. ANDERSON, 710 Eleventh street, Sacramento, Swollen Limb of long standing

W. S. DOAN, Sacramento, 33 years of Fever Sores. Cured in forty days. Certified to by Wm. Gutenberger, ex City Trustee, Sacramento; Alex. Nellson, John Driscoll and H. G. F. Root, proprietors Union Foundry, Sacramento, and others.

JACOB OLSEN, Sacramento, speedily cured of a Chronic Ulcer.

JAS. McCORMICK, Vice-President Bank of Redding, eight years' suffering from worst character of Rectal Ulcer. Permanently cured in three and one-half months. [Note.—Nearly all these testimonials include reference to use of SARSFIELD'S BLGOD REMEDY, as well as of the ULCER SALVE.] W. A. DEAN, brother-in-law of M. H. Transportation and Markets.

Cheap and rapid transportation is of the utmost importance to those who are both producers and consumers. It cheapens all that he buys and enhances the price of all he produces. The "LANGFORD COLONY" is most advantageously situated in this respect. It is between two railroads that both connect with steamboats that run from the Sacramento and San Josquir points to the Golden Gate. This gives the cheapest freight and passenger rates for the distance n this Coast. The markets for all kinds of products are good. The Canneries, Wineries and Fruit Dealers take all the Fruit raised, at highly remunerative prices. There is an unlimited demand for all the Wine, Raisins, Figs, Prunes, Green, Dried and Canned Fruits that can be grown. Dairy Products, Fowls, Eggs and Vegetables find a ready sale. Every acre of this land when in bearing Fruit Trees or Vines will net \$100 per acre. For further particulars apply to

TRUCKEE EXCITED.

Arrest of a Man Supposed to be Pete Olsten, the Napa Murderer. TRUCKEE, March 7th .- Truckee has been TRUCKEE, March 7th.—Truckee has been excited all day over two arrests that have been made in the last twenty-four hours. The first was, or is supposed to be, Pete Olsten. Your reporter interviewed him this afternoon, and elicited the following: Name, John Brooks; 39 years old; born in Mahmer, Germany, three German miles from the Russian border. Have not been in Sep Fraggiego for seven years; have a in San Francisco for seven years; have a wife, whose name is Lizzie Brooks; think while, whose hattle is placed to the san Francisco. Pete claims to have come here from the East, and says he has been working at Fort Steele, Wyoming Ferritory, for a contractor by the name of ferritory, for a contractor by the hathe of John Crow. He appears to be indifferent to the charge against him. He possesses the scars and identical marks published in the description of Pete Olsten. His picture was taken to-day by a photographer here, and will be forwarded to-night for identification. The arrest was made by officer cation. The arrest was made by officer Reed, who feels assured that he has got the The second arrest was that of J. H. Huer

The second arrest was that of J. H. Huer, who was a former partner of Springer, the Colton murderer. In an interview he stated that he was two years ago in business in Stockton with Springer, but, finding out he was robbing him, closed the business and went to Lodi. He stated that e knows nothing of the murder, but has roffered Captain Lees to come at any time and identify him. Huer's wife lives at 10½ Taylor street, San Francisco, and he states that he is well and favorably known in that city. It is thought by the officers here that he is in possession of Springer's whereabouts, but he strenously denies it. Another identification mark on the sup-posed Olsten is claimed to have been dis-covered to-night. Should it prove to be Olsten, Truckee will doubtless save the State the expense of a trial. It is thought that the supposed Olsten is an unmitigated liar, to say the least. He has told some

The above is an allegory. The discour aged housekeeper is the liver, which, in-deed, is often called "the housekeeper of our health." If it does go to sleep, as it threatened, a crowd of diseases are all upon the liver and assists it in its work of housekeeping and house-cleaning. It is the great liver remedy and blood cleanser, and cures all the long train of chronic maladies resulting from a torpid or sluggish, sleepy liver, such as sick-headache, crofulous diseases, as ulcers. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY FILLS will

Mrs. A. M. Dauphin, of 1939 Ridge Avenue, Philadelphia, has done a great deal to make known to ladies there the great value of Mrs. Pinkham's Vegetable Compound, as a cure for their troubles and diseases. She writes as follows: "A young lady of this city, while bathing some years ago, was thrown violently against the line, and the injuries received resulted in an ovarian tumor, which grew and enlarged until death seemed certain. Her physician finally advised her to try Mrs. Pinkham's Compound. She did so, and in a short time the tumor was dissolved, and she is now in perfect health. I also know of many cases where the medicine has been of great value in preventing miscarriage, and alleviating the pains and dangers of childbirth. Philadelphia ladies appreciate the worth of this medicine and its great value.
